DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 20 and its dependent claims 32, 40-47 and 50-54; and claim 63 and its dependent claim 64; drawn to customization of a user interface, classified in class 345, subclass 866.
 - II. Claim 65; claim 66 and its dependent claim 64; claim 67; and claim 71 and its dependent claims 25, 55-58, 60-62 and 70; drawn to adjustable light interference, classified in class 359, subclass 578.
 - III. Claim 68 and its dependent claims 26, 28, 33, and 40-54; claim 69 and its dependent claims 26, 28, 33, 40-54 and 59; and claim 72 and its dependent claims 73-85; drawn to plural physical display elements, classified in class 345, subclass 30.
2. Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as products including graphical user interfaces that include customization; invention II has separate utility such as products including adjustable light interference that do not include graphical user interfaces as recited in group I; invention III has separate utility such as products including displays which do

not include adjustable light interference as recited in group II and which do not include graphical user interfaces as recited in group I. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
